Osnabrück, 30 November 2021

**Felix Schoeller Group: New management at Technocell Dekor
Frank Meyer-Niehoff hands over responsibility for decor business EMEA to Tim Gutendorf**

There will be a change in the management of the Felix Schoeller Group's Technocell Dekor segment on December 1, 2021. After holding various positions in the family-owned company and four years in charge of the decor business in EMEA, Frank Meyer-Niehoff is passing on this responsibility for personal reasons. Meyer-Niehoff, who is moving to a new position of responsibility at his own request, will be succeeded by Tim Gutendorf.

The 30-year-old Tim Gutendorf has already gained a great deal of experience in various divisions of the globally active specialty paper manufacturer with more than 3,700 employees. Following his part-time studies at the Felix Schoeller Group and subsequent master's degree in marketing and sales management, he recommended himself for the new role through various positions. Most recently, he worked in marketing and sales in the Technocell segment, among other things. In his new role as Head of Sales Dekor EMEA, he intends to expand the decor business together with his team and customers in Europe, the Middle East and Africa. The aim is to strengthen the position of the Osnabrück-based Felix Schoeller Group as the market leader in decor papers.
