

GRAPHIC ARTS

FELIX-FAST PORTFOLIO OF
QUALITY RELEASE LINERS

KEY APPLICATIONS:

- Floor Graphics
- Outdoor signage
- Interior & Fleet Graphics

After studying the demands of the market, we are proud to launch a simplified **AQULIX®** Graphics portfolio of five grades covering the main applications of the industry. From interior and floor graphics, to fleet, outdoor signage and more – this simplified range

offers a **Felix-Fast** response to your business inquiries. You profit from prompt service and our highest quality. Customization and our expanded portfolio are available to tackle additional projects where a toolbox-style approach is called for.

1.

Our **Rapid Sample** test pack offers you A4 hand sheets to quickly match and verify release (we offer products from SuperEasy all the way to tight).

2.

Mill rolls are **warehoused** in the US ready to be shipped against your short notice orders once your release level is confirmed.

3.

In-house converting operations allow us to ensure cores, outer diameter, and other constraints are set for your needs.

KEY BENEFITS YOU CAN COUNT ON

BEST-IN-CLASS LAYFLAT PERFORMANCE AND DIMENSIONAL STABILITY

Years of experience developing photographic paper lend themselves directly to fighting curl and promoting dimensional stability.

EXCELLENT RELEASE PROPERTIES

Choose from numerous release levels, according to your needs. We can even tailor a level to suit.

OUTSTANDING QUALITY AND RUNABILITY

Our state of the art process control systems ensure a consistent and dependable product that results in excellent runnability on your converting equipment.
